Tuesday/Thursday Breakfast Social and Discussions

Sherman & Associates

December 2, 2014

Highlights – SJB Group DBE Supportive staff Mr. Kenyatta Sparks (Program Assistant), held another successful Breakfast Social meeting with Mr. Joseph Sherman with Sherman & Associates. Mr. Sherman obtained his DBE certification in November 2014 and he wanted to meet with DBESS in a more personal matter and get a better understanding of the types of services they provide certified DBEs. Mr. Sherman requested information about contracting opportunities with DOTD, bidding on projects, marketing, networking, and maneuvering LADOTD's website. In addition to addressing those concerns, DBESS also provided Mr. Sherman with a copy of both their Directory of Contractors' Booklet and Directory of Engineers' Booklet.

Mrs. Juanita Linton, Small Business Element (SBE) Program Manager with the LADOTD Compliance Programs Office, whom also attended to meeting, was available to discuss the new Small Business Element (SBE) Program and certification requirements. To learn more about the SBE Program and certification process, contact Mrs. Linton at (225) 379-1382.

We would like to thank Mr. Sherman for taking time out of his busy schedule to meet with us here at SJB Group. And, we thank Mrs. Linton for the valuable information she presented at the meeting.

If you are interested in attending our Breakfast Socials, please call Mr. Sparks at (225) 769-3400. These meetings are held on Tuesdays and Thursdays from 10:30 am to 11:30 am, at the SJB Group Office, 5745 Essen Lane, Suite 200, Baton Rouge, Louisiana.

OSHA Safety Article.....

Demolition: Construction in Reverse, with Additional Hazards.

OSHA Compliance Safety and Health Officers often face a somber task as they identify and document the violation of safety and health standards which lead up to the latest worker tragedy. *Demolition worker impaled on rebar. Worker electrocuted during demolition work. Two demolition workers die of burns after flash fire at warehouse. Employee in aerial lift killed when roof collapses.* However, the **hazards of demolition work can be controlled and eliminated** with the proper **planning**, the right **personal protective equipment**, necessary **training**, and **compliance with OSHA standards**. This Safety & Health Topics page is dedicated to the demolition workers who died on the job.

Demolition is the dismantling, razing, destroying or wrecking of any building or structure or any part thereof. Demolition work involves many of the hazards associated with construction. However, demolition involves additional hazards due to unknown factors which makes demolition work particularly dangerous. These may include:

Changes from the structure's design introduced during construction;

Approved or unapproved modifications that altered the original design;

Materials hidden within structural members, such as lead, asbestos, silica, and other chemicals or heavy metals requiring special material handling;

Unknown strengths or weaknesses of construction materials, such as post-tensioned concrete;

Hazards created by the demolition methods used.

To combat these, everyone at a demolition worksite must be fully aware of the hazards they may encounter and the safety precautions they must take to protect themselves and their employees.

Demolition hazards are addressed in [specific standards](#) for the construction industry.

Hazards

Proper planning is essential to ensure a demolition operation is conducted with no accidents or injuries. This includes, but is not limited to:

An engineering survey completed by a competent person before any demolition work takes place. This should include the condition of the structure and the possibility of an unplanned collapse.

Locating, securing, and/or relocating any nearby utilities.

Fire prevention and evacuation plan.

First Aid and Emergency Medical Services.

An assessment of health hazards completed before any demolition work takes place.

EVENTS & WORKSHOPS

8A-Certification Training [Register](#)

Wednesday, January 21, 2015 10:00 AM to 12:00 PM

Information will be presented on 8(a) eligibility criteria, GLS, Login, application process, and how the programs work. We will also discuss CCR and SBSS registration and provide general information on doing business with the Federal Government. Detailed information will be provided on the primary purpose of the Section 8(a) Program (business development); the eligibility criteria; length of time in business requirement; how the business development and contracting aspects of the program work; the firm's responsibility as an 8(a) Program Participant; Electronic Application process; reporting requirements; the importance of updating CCR registration and the SBSS supplemental profile.

[8\(a\) Business Development Program - Walker](#) [Register](#)

Thursday, January 15, 2015 8:00 AM to 10:00 AM

The SBA's 8(a) Business Development Program, named for a section of the Small Business Act, is a business development program created to help small, disadvantaged businesses compete in the American economy and access the federal procurement market. The basic eligibility requirements include: - the firm must be a small business; - the firm must be unconditionally owned and controlled by one or more socially and economically disadvantaged individuals who are of good character and citizens of the United States; - the firm must be daily managed by one or more socially and economically disadvantaged individuals who are of good character and citizens of the United States; and - the firm must demonstrate the potential for success (two-year rule). The workshop will cover: 1. Eligibility criteria for Section 8(a) program participation; 2. Overview of the electronic application; 3. Review of the required supporting documentation; 4. Review, explanation and guidance in completing the required SBA Forms (i.e. 912, 4506T, 413, 1623, 1790); and 5. Additional information as needed by the participants. The goal of this workshop is to educate the small business community on the Section 8(a) program and to provide guidance in the completion of the electronic application.

Location: [Livingston Parish Literacy and Technology Center, Walker](#)[HUBZone - Historically Underutilized Business Zone Workshop – Walker](#) [Register](#)

Thursday, January 15, 2015 10:30 AM to 12:30 PM

WHAT: The U.S. Small Business Administration is conducting a HUBZone education and training event. The Historically Underutilized Business Zone (HUBZone) Program Boot Camp is designed to introduce your business to the program, help determine whether your business is eligible for the program, and support the efforts of your business to participate in the program. WHY: Every year, the federal government awards over \$500 billion in contracts. A significant share of those contracts are specifically allotted to small businesses. SBA assists federal agencies in identifying and awarding contracts to meet the 23% statutory goal of government-wide small business prime contracting. Agencies are also required to award 3% of contracts to small businesses located in historically underutilized business zones (HUBZone). SBA encourages small businesses to learn more about the HUBZone program and take advantage of this federal contracting opportunity. The session is designed for all small businesses considering Hubzone certification or looking for more information on the Hubzone program. Topics to be covered include: Hubzone eligibility criteria; review of the Hubzone application; maintaining Hubzone certification; identifying Hubzone contracting opportunities. LEARN MORE:

<http://www.sba.gov/HUBZone> To find out if your small business is located in a HUBZone check out our HUBZone maps:

EVENTS & WORKSHOPS

Woman Owned/Veteran Owned Small Business Workshop (WOSB/EDWOSB/VOSB) - Walker Register

Thursday, January 15, 2015 1:30 PM to 4:00 PM

WOMAN-OWNED SMALL BUSINESS WORKSHOP OVERVIEW WOSB Session Overview: Small business certifications are like professional certifications. They document a special capability or status that will help you compete in the marketplace. Unlike permits and licenses, you do not need to obtain certifications to legally operate. However, in order to take advantage of business opportunities such as government contracts, you may need to obtain certain certifications. Women business owners should seek to leverage the opportunities available through the federal government to drive revenue growth. This workshop will guide you in doing just that. Topics to be Covered: • Woman Owned Small Business Federal Government Contract Set-asides • Final WOSB Ruling and Impact and Advantage • Eligible NAICS Codes • WOSB Certification Process • Identifying Contract Opportunities • Effectively Responding to Requests for Government Proposal • Completing Required Registrations VETERAN OWNED SMALL BUSINESS WORKSHOP OVERVIEW This training is for existing businesses and those individuals who are interested in starting a business. Every year, the federal government awards over \$500 billion in contracts and a significant share of those contracts are specifically allotted to small businesses. SBA works with federal agencies to assist them in identifying and awarding contracts in order to meet the 23% statutory goal of government-wide small business prime contracting. Federal agencies are also required to award a certain percentage of these contracts to veteran-owned small businesses. The Veterans Entrepreneurship and Small Business Development Act of 1999 established an annual government-wide goal of not less than 3% of the total value of all prime contract and subcontract awards for service-disabled veterans. The purpose of this is to: - provide training and assistance to the veteran small business community - provide eligibility criteria for service-disabled and veteran-owned small businesses - provide process for Veterans Administration Verification Process for service-disabled veteran-owned small businesses - provide guidance on registering as a veteran-owned small business - provide information on contracting opportunities for veterans SBA encourages all small businesses to learn more about the Veteran-owned Small Business Contracting Program and learn how to take advantage of this federal contracting opportunity. The training will provide information on completing required registrations, applying for various certifications, information on identifying contract opportunities.

Managing a Business**Certification: An Overview in Black & White Register**

Wednesday, January 14, 2015 2:00 PM to 4:00 PM

Many firms get lost in the "alphabet soup" of certifications: DBE, WBE, MBE, 8(a), SEBD . . . This seminar focuses on why (or why not) certification as a minority, woman-owned, or disadvantaged business may be beneficial to your company. The Do's and Don'ts of certification are provided in "plain English" to help the small business owner decide which certification is right for his or her business. Then, get prepared for the certification process: learn about the various certification types as well as how and where to apply. Attendees will have an opportunity to ask questions about the processes, benefits and documentation required for certification.

Time Management - Easy to Say but Tough to Do - Hammond Register

Thursday, January 22, 2015 12:00 PM to 1:00 PM

How well do you manage your time? If you're like many people, your answer may not be completely positive! Many of us know that we could be managing our time more effectively; but it can be difficult to identify the mistakes that we're making, and to know how we could improve. Join us for this event, where we will discuss the most common time management mistakes, and identify strategies and tips that you can use to overcome them. We can't control time but we can learn to manage the events in our life that take time.

Estimated Construction Cost: \$1,000,000 to \$2,500,000

Construction Proposal Documents

Proposal: H.011172.6 US 90-Z: PAVEMENT MARKING REPLACEMENT I

DBE Goal: 8%

Description of work: pavement marking replacement and related work.

Parish(es): Jefferson; Orleans

Route(s): US 90-Z

Federal Number: H011172

Estimated Construction Cost: \$500,000 to \$1,000,000

Construction Proposal Documents

Proposal: H.011182.6 ITS DYNAMIC MESSAGE SIGNS (KENNER)

DBE Goal: 18%

Description of work: intelligent transportation systems and dynamic message signs (dms)

Parish(es): Jefferson

Route(s): LA 49; Loyola Dr.; Power Blvd.

Federal Number: H011182

Estimated Construction Cost: \$1,000,000 to \$2,500,000

Construction Proposal Documents

Proposal: H.011228.6 LA 415 to I-110

DBE Goal: 3%

Description of work: signs, pavement markings, and related work.

Parish(es): East Baton Rouge; West Baton Rouge

Route(s): US 190

Federal Number: H011228

Estimated Construction Cost: \$500,000 to \$1,000,000

Construction Proposal Documents

Proposal: H.011268.6 I-20: PAVEMENT MARKING REPLACEMENT III

SBE Goal: 2%

Description of work: striping and related work.

Parish(es): Madison; Ouachita
Route(s): I-20
Federal Number: H011268
Estimated Construction Cost: \$250,000 to \$500,000
[Construction Proposal Documents](#)
Proposal: H.011297.6 LA 3107: LA 309 - LA 20
DBE Goal: 11%

Description of work: cold planing asphaltic concrete, pavement patching, superpave asphaltic concrete overlay, and related work.
Parish(es): Lafourche
Route(s): LA 3107
Federal Number: H011297
Estimated Construction Cost: \$1,000,000 to \$2,500,000
[Construction Proposal Documents](#)
Proposal: H.011400.6 La 440: S. JCT. LA 1054 - LA 1057

Description of work: drainage structures, in-place cement treated base course, cold planing asphaltic pavement, superpave asphaltic concrete pavement and related work.
Parish(es): Tangipahoa
Route(s): LA 440
Estimated Construction Cost: \$5,000,000 to \$7,500,000

What can SJB Group do for You?

SJB Group, LLC can provide **free assistance** to certified LADOT DBE firms in the following areas:

SJB Group can assist you by: preparing company business cards, profile sheets, and providing information on recommended target areas for your marketing efforts.

By acting as a liaison between the DBE Contractor and Prime Contractor for project information, and in problems occurring on the jobsite.

By informing of upcoming LADOT lettings, and project information for other agencies throughout the state. SJB can assist you in locating bid tabulation information as well.

By providing assistance and guidance on material takeoffs, bid preparation and estimating, project scheduling, and planning for projects that DBE firms are bidding or plan to bid in the near future.

By helping with office computer operations to include trouble-shooting problems, Internet access and software installation, and basic to technical computer training.

By assisting in financial areas such as loan and bond package preparations, company financial statements, business plan preparation, and SBA 8(a) and Hub-Zone certification packages.
